PROJECTS

JARVIS — Autonomous AI PC Agent ↗
Sep 2026

Built an experimental AI PC agent focused on natural-language computer control and automation.
• Explored computer-use workflows and screen understanding.
• Worked with MCP-based tooling and AI agent architectures.
• Designed workflows for controlling applications through natural-language commands.
• Worked on Windows automation, debugging and system integration.
ALSO TO NOTE:
i made a custom coded app inside voice os an normal voice assistant app to enhance its experience

Aura — AI Personal Assistant ↗
Sep 2025 - Present

Built an AI assistant designed to interact with users through natural language and perform tasks using AI-powered tools and automation.
• Explored AI agent architecture, tool calling and automation.
• Worked with AI APIs and voice-based interaction.
• Designed the system to interact with applications and perform useful computer tasks.
• Focused on creating a more natural, conversational AI assistant experience.

Nxteraa ↗
Jul 2026 - Sep 2026

Built and developed an e-commerce platform for a mobile accessories brand.
• Developed the website using Next.js, React, TypeScript and Tailwind CSS.
• Worked with Prisma and PostgreSQL for application data.
• Implemented product/catalog functionality and e-commerce workflows.
• Worked on authentication, payments, shipping integrations and admin functionality.
• Deployed and maintained the application using modern web development tools.

SKILLS

- JavaScript
- Next.js
- Tailwind CSS
- PostgreSQL
- Automation
- Microsoft Azure
- GitHub
- TypeScript
- HTML
- Node.js
- REST API
- Git
- ChatGPT
- Vercel
- React
- CSS
- Prisma ORM
- Artificial intelligence
- Gitlab
- Claude

EXTRA CURRICULAR ACTIVITIES

- • Independently building web applications, AI tools and automation projects.
  • Exploring AI agents, computer-use systems and modern software development.
  • Creating and experimenting with startup and e-commerce ideas.
  • Sharing technology and development content through Harman Codez.
  • Continuously learning new programming frameworks, APIs and development tools.

ADDITIONAL DETAILS

- Built real-world web, e-commerce, AI and automation projects. Developed an e-commerce platform for a mobile accessories brand and AI assistant projects. Skilled in modern web technologies and passionate about software, AI, automation and product dev
